

How to identify B and Non-B version of DS-KH9510-WTE1

This guideline is to help you choose which firmware you need to download based on the device you have.

If you receive the unit and model number is like this, please download non-B version firmware.

If you have a (B) at the end of the model number, then please download B version firmware.

Please contact product team at product.usa@hikvision.com for more information.
