

Keeping Residents Safe & Secure in Assisted Living Facilities

HIKVISION

Hikvision offers many solutions to protect assisted living residents, helping facilities more easily maintain a safe, secure environment. Features include:

- **HikCentral CMS:** Manage video from multiple facilities at one central location with Hikvision's central management software. Integrates with many third-party systems for ease of use across all systems.
- **Access Control:** Variety of access control options allow for access to preapproved areas, while helping to keep residents safe by preventing access to unauthorized areas.
- **Facial Recognition:** Highly accurate facial recognition to quickly identify residents and allow for freedom of movement while keeping them safe and preventing patient elopement.
- **Queueing Camera:** Monitor and supervise wait times and understaffed areas. Audit cleaning of rooms, bathrooms and areas of high traffic as well as key data points on pedestrian flow throughout the facility.
- **Healthcare Centric Analytics:** On-board analytics such as line crossing detection provides an alert if a designated area has been accessed.
- **Unique Applications:** DarkFighter cameras provide high quality images in extreme low light conditions. Multi-sensor cameras offer wide-area surveillance in areas such as parking lots. Fisheye cameras provide 360-degree surveillance.
